

BEDROCK RESOURCES  
ANNUAL PROGRESS REPORT 2007  
Amended OP-99-1  
(OP2005-0001)

**1. Identification of lands mined during the preceding years and expected to be mined during the current:**

All mining (mineral extraction) in 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006 occurred within "previously disturbed" areas. (The area currently being mined has been previously disturbed by mining activities)

**2. Reclamation Progress:**

The area currently being mined is exempt from reclamation requirements.

**3. Extent of Land Disturbance last year:**

Additional Land Disturbance required during the year 2006 is displayed on the attached aerial map.

**4. Environmental Monitoring Program:**

As an "existing" mine which does not involve the pumping or export of water, no environmental monitoring is required under operating Permit No. Amended OP-99-1 (OP2005-001).

**5. State and Federal Inspection reports:**

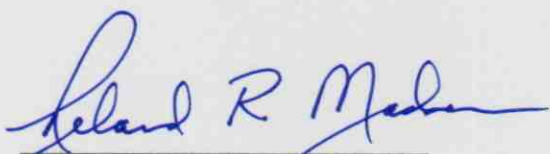

No inspections Florida DEP, DNR, Army Corp of Engineers and the Florida Game and Fresh Water Fish Commission have been made of expansion property and existing operation in the year 2006. Results of such inspections (as they occur) either present or future will be made available to Sumter County as part of the expansion property permitting process. One (1) ERP Annual Status Report was filed in 2006 with the FDEP in Tallahassee. A copy of this report is included with this annual Report. One (1) Initial Mine Inspection was made on November 15, 2006 by Tetra Tech Hai on behalf of Sumter County. A copy of the results of the inspection is included with this annual Report.

**6. Aerial Photo's:**

No new aerial photos were generated over the mining operation in 2006. The previous year's aerial photo (12/14/05) is included and labeled with the additional new mining and land disturbance accomplished during 2006.

**7. Certification:**

Leland R. Madsen by signature below certifies that to the best of his knowledge all mining activities within the subject mine are being carried out as indicated in the Sumter County Annual Mining Report and in strict accordance with the operating permit Amended OP-99-1 (OP2005-0001).
